

C-ZONE GROUP EVENTS

Kids: Our well-equipped kid-sized science lab and highly-acclaimed hands-on programs invite kids to explore their world -- developing a solid learning foundation in science, math and beyond.

Grownups: For grownups, our labs offer the chance to be a kid again, unlocking the creativity and sense of wonder that may have been lost along the way.

Choose one of our themes, or call us about a custom workshop to fit your needs.

FOR PRESCHOOLERS:

Wobble Bobble. Kids learn about basic physics (including motion, forces, balancing, spinning & gravity) through a variety of wobbling, bobbling activities. They'll be amazed by the wobbleball, entranced by spinning tops, gyroscopes and balances, and excited by the crashing tower game. They'll also love making their own balance to take home and show off!

Mixed-up Zoo. Kids learn about biodiversity as they become zookeepers and help sort out our crazy, mixed-up zoo. Kids love digging in the sand table, splashing in the water table, hunting for bugs, playing in the "petting zoo" and making their very own funny bug headbands while learning about reptiles, primates, arachnids, insects and more.

balls.

Spa Lab. In this chemistry and physics lab, kids explore how scientists help to invent household items like fizzy, foamy bath bombs, scented bath salts and simple UV ray detection devices.

Art Lab. In this chemistry lab, kids explore how scientists help to invent household items like sidewalk chalk, play "foam" and fruity play dough.

FOR KIDS & GROWNUPS:

Motion Commotion. In this high-energy physics lab, we'll explore inertia, gravity, propulsion, trajectory, potential energy, kinetic energy and more by building and experimenting with water-powered boats, wind-up spool racers, air-powered rockets and self-propelling "squids."

Land & Sea Blasters. In this earth science lab, have a bubbling, fizzing blast as you make volcanoes, geysers, fountains, tornadoes and bubbling mud pots!

Polymer (Slime)

Science.

In this chemistry lab, explore liquids, solids, elasticity, polymers and more while you mix up your own formulas for slime, oobleck and bouncy

Details

- 1 hour lab
- \$180 for first 15 people, then
- \$12/add'l people

GROUP EVENT DETAILS

EVER WONDER . . . WHAT HAPPENS AT A C-ZONE GROUP EVENT?

Curiosity Zone group events are age appropriate science labs for ages 3-103. Events last for one hour and cost \$180 for up to 15 people (approximately \$12 per person). The fee for each additional person is \$12, up to a maximum of 24 (preschool), 30 (K – 5th grade) or 18 (grownups).

EVENT POLICIES.

- Event registration requires a \$75 non-refundable deposit. Full remaining payment must be made on the day of the event.
- Please do not arrive more than 15 minutes early.
- Any child under 3 years of age must be accompanied by an adult.
- Please time your outing so that you use only your allotted 60 minutes. If you or your members of your group remain in the classroom area more than 10 minutes past the end of your event, we will charge an additional \$25 per 10 minutes of overage. Timing is very important to our business, and it is essential that we have enough time between events, classes and parties to clean up and set up. Thank you for understanding!
- Children who are not included in the group count cannot participate in the lab activities. Our group size limits must be strictly enforced due to insurance and safety requirements. ***Should you exceed the group size limit, regardless of circumstances, you will be assessed an additional \$50 per child.***
- We reserve the right to disallow any refreshments or decorations that create an unusual amount of mess.
- By registering for an event at the Curiosity Zone, you are renting our facility and securing our educational and entertainment services. However, you remain responsible for your group's members at all times while in the Curiosity Zone facility.
- We reserve the right to close our facility and refund your money if we believe weather conditions present a significant danger to our employees or customers.

Please sign that you've read and understand these policies: _____ **Date:** _____

REGISTRATION. By registering for a C-Zone Event, you are agreeing to abide by the policies set forth above.
